

June 15, 2021

Dear Parent/Guardian,

Summer academic practice gives our students a chance to review skills learned during the school year while also preparing them for the new challenges ahead...

We encourage **all students** to move through the *IXL Summer Boost Plan* at a gradual pace to maintain and improve skills in both **Math and Language Arts**.

Summer assignments include Math and Language Arts IXL skill practice mentioned above, as well as Summer Reading requirement found on the GBOE website.

Additional Math practice is available. *Getting Ready Packets* are for families to collaborate on additional practice, if they wish. The packets contain a variety of grade-level appropriate concepts to investigate and practice with your child. (Also linked on District Curriculum site)

Have a Great Summer!

Jack LoBue  
Elementary Math Supervisor
