Dear Parent/Guardian,

Academic practice offers our students a valuable opportunity to practice learned skills and get ready for the upcoming school year. At the same time, we appreciate the importance of taking a break and recharging.

This summer, assignments include required Summer Reading activities and optional Math practice. You can find all the materials on the GBOE website.

Getting Ready Packets are for families to collaborate on optional math practice. The math packets contain a variety of grade-level appropriate concepts to investigate and practice with your child. *(Also linked on District Curriculum site)*

Have a Great Summer!
